

Andrey Ubeyvolk	Conceptual Art Director	Creative Direction Brand Identity Visual Systems Team Leadership AI-Native Creativity	
About	Conceptual Art Director with 10+ years of experience shaping brands, visual identities and communication for digital products and technology companies. I work across the full creative process—from understanding a brief and defining the idea to setting visual direction and driving execution. Alongside hands-on art direction, I lead and mentor designers, build creative processes and explore AI-native ways of working.		
Experience	Sumsub 2021–2025	Art Director	Shaped and evolved Sumsub's visual direction during a period of rapid international growth, establishing a consistent visual language across brand, marketing and communication. Led creative projects from concept and visual direction through execution across campaigns, events, editorial, reports, merchandise and digital communications. Developed scalable visual systems for major industry directions, including iGaming and Crypto, turning individual project executions into coherent visual languages for wider industry communication. Led and mentored designers through creative direction, critique and feedback, while exploring new visual formats, AI-assisted workflows and experimental approaches. Worked across digital and physical brand experiences, including international conferences, exhibition environments and custom merchandise.
	Independent 2025–Present	Art Director / Creative Consultant	Working independently with technology, AI and creative brands on brand direction, visual identity, creative concepts and selected communication projects.
	Nimax 2021	Graphic Designer	Graphic design and visual communication for digital products and brands.
	SKS Bank 2020–2021	UX/UI & Communication Designer	UX/UI design and visual communication across digital products and brand touchpoints.
	Gazprom Neft 2018–2020	UX/UI & Communication Designer	UX/UI, communication design and visual systems for digital products and internal initiatives.
	Independent 2014–2018	Art Director / Graphic Designer	Independent work across branding, identity, graphic design and visual communication.
	Leonid Alexeev Design Studio 2011–2014	Graphic Designer	Graphic design and visual communication across fashion and brand projects.
Selected work	Sumsub Rebranding	Brand Identity Visual Direction System	Created the visual foundation for Sumsub during a period of rapid growth. Established a consistent visual system across marketing, communication and product touchpoints—from presentations, campaigns and illustrations to reports, social media, PR materials and physical brand applications.
	iGaming	Industry Identity Visual System Art Direction	Developed a scalable visual identity for Sumsub's iGaming direction. Built on a series of earlier campaigns and conference projects, evolving a recurring cube-based visual principle into a coherent system for the wider industry.
	Crypto	Industry Identity Visual System Art Direction	Developed a large-scale, scalable visual system for Sumsub's Crypto direction, establishing a consistent visual language across industry communication and campaigns.
	Multiverse	Event Identity Scalable System Art Direction	Created and maintained the visual direction for a recurring conference series, building a scalable system that kept multiple editions visually connected while allowing each event to develop its own expression.
	Crypto Report	Editorial Digital Art Direction	Art-directed Sumsub's first online report, introducing a cinematic visual language through coded colour, motion blur, bokeh and layered imagery. The approach later became a foundation for the brand's broader photographic style.
	What The Fraud? podcast	Podcast Identity Scalable System Art Direction	Created the umbrella identity and seasonal system across multiple seasons, from studio visuals and covers to social and advertising.
	TOKEN2049	International Physical Art Direction	Art-directed Sumsub's physical presence across multiple editions in Dubai and Singapore, including stands, merchandise, video and a hands-on graffiti experience. Worked with an international audience in English.
Creative Leadership	Creative Direction	Setting the visual direction from the initial idea through execution, connecting concept, visual language and final output.	
	Team Leadership	Leading and mentoring designers through clear feedback, creative critique and shared standards of quality. Helping people develop through their strengths rather than a uniform process.	
	Creative Process	Turning briefs and ambiguous ideas into clear concepts, visual systems and actionable direction. Bringing structure to exploration without limiting experimentation.	
	Cross-functional Collaboration	Working closely with marketing, product, content and other teams to translate business and communication goals into coherent visual solutions.	
	Visual Standards	Raising the quality bar through attention to composition, detail, typography, hierarchy and consistency across the whole visual system.	
AI & Creative Technology	AI-Native Creativity	Using AI, generative tools and code as part of the creative process—from visual exploration and concept development to production and iteration.	
	Creative Systems	Building reusable prompts, templates, workflows and AI-assisted systems that make creative work faster, more flexible and easier to scale.	
	Hybrid Practice	Combining traditional art direction and design with generative AI, motion, image-making and code—choosing the right tool for the task rather than working within a fixed production method.
